

Product Information Sheet

DaVinci Tall Fescue is our most advanced Turf Type Tall Fescue variety to date. It is tied for #2 for overall turf quality in the new 2005 NTEP trials. DaVinci was selected for improved disease resistance, fine leaf texture, high endophyte level, and dark green genetic color. DaVinci is extremely heat and drought tolerant. It produces consistently beautiful turf under Southern heat and in cooler Northern regions. It is ideally suited for sod production, sports turf, golf course roughs, home lawns, and commercial sites. DaVinci is available exclusively in Winning Colors Tall Fescue blend and Winning Colors Plus mix. For more information on DaVinci or any other Lebanon products, please call 800-233-0628 or visit www.LebanonTurf.com.

Characteristics of DAVINCI
